Experience

Skaiwel Trading & Solutions Inc. 04/2026 – Present
Application Developer Intern (Sakai – Ride Hailing Platform) Quezon City

- Developed a real-time ride-hailing system using React Native (Expo) and FastAPI, implementing ride matching, live GPS tracking, and trip state synchronization across driver and passenger applications.
- Designed a WebSocket + Redis-based location streaming architecture with geohash-based throttling to reduce redundant location updates and support high driver concurrency.
- Implemented OTP-based authentication and dynamic fare computation logic to ensure secure session handling and consistent trip pricing.

Skaiwel Trading & Solutions Inc. 12/2025 – 04/2026
Application Developer Intern (Inventory Management System) Quezon City

- Built a full-stack inventory management system using React and FastAPI to replace manual inventory tracking workflows.
- Designed QR/barcode-based transaction flows (transfer, pull-out, return, drop-off) with validation rules to improve accuracy and traceability.
- Developed role-based dashboards and reporting modules to improve stock visibility and operational decision-making.

Barangay Gumaoc East – National University 08/2025 – 10/2025
Full Stack Developer (Thesis Project – IOT-Enabled Barangay Information System) Quezon City

- Developed a PHP/MySQL-based barangay information system for incident reporting, service requests, and resident record management.
- Automated request processing workflows to reduce manual handling and improve administrative turnaround time.
- Implemented centralized data management to improve record retrieval and coordination across barangay services.

Mabini Vape Shop – National University 03/2025 – 06/2025
Full Stack Developer (Thesis Project – Ordering and Inventory Management System) Quezon City

- Built a PHP/MySQL ordering and inventory system to digitize sales and stock management processes.
- Implemented real-time inventory tracking with low-stock alerts to prevent overselling and improve stock accuracy.
- Streamlined order processing workflows to reduce manual encoding and improve transaction efficiency.

Skills

-
- **Languages:** Python, JavaScript, TypeScript, SQL, HTML, CSS
 - **Frameworks & Libraries:** React, React Native, Expo, Expo Router, React Navigation, TailwindCSS, NativeWind, FastAPI, Node.js, SQLAlchemy, Pydantic
 - **Tools & Technologies:** PostgreSQL, Redis, WebSockets, JWT Authentication, Docker, Docker Compose, Git (CLI), Uvicorn, Vite, npm, Pytest, ESLint, Agile Development

Education

College | B.S. Information Technology Major in Mobile and Internet Technologies 06/2022 - Present
National University – Fairview, Quezon City

Honors: Dean's Lister (First Honors) — 1st Term AY 2023–2024; 1st & 2nd Term AY 2024–2025

Certifications

TOPCIT – Level 3 (12/2025)

Alibaba Cloud – Auto Scaling Fundamentals (06/2025), SLB Fundamentals (05/2025), OSS Fundamentals (05/2025), ECS Fundamentals (04/2025), ApsaraDB RDS Fundamentals (04/2025); ACA Big Data Certification (06/2024)

Oracle Cloud Infrastructure – OCI 2023 Certified Foundations Associate (08/2023), Cloud Data Management Foundations Associate (08/2023)
